CYPRUS STUDENT
CONFERENCE IN
MATHEMATICS
8-10 MARCH 2013
AGROS

What is the mathFactor CYPRUS?

The idea is to encourage young people with a passion for mathematics to share their enthusiasm and knowledge with the general public. The Math Factor is organized by the Cyprus mathematical society in collaboration with Thales Foundation Cyprus within the framework of the Pancyprian Student Conference in mathematics that will be held at the hotel RODON Agros, 8-10 March 2013

What is the goal of the Math Factor;

The aim of the Math Factor is to encourage students, to try with enthusiasm to stimulate the imagination of the public and be able to develop their ideas with presentation skills to a non-specialist audience.

How it's done?

Participants have three minutes to impress the jury and audience, through a fun and original presentation that contains the mathematical accuracy, but at the same time is understandable and enjoyable to a non-mathematical audience. The presentation may be in Greek or in English. The criteria include assessment on the content, originality and charisma.

Who is involved?

The contest is open to students from public or private secondary education schools (ages 12-18). Application forms can be found at the sites www.cms.org.cy and www.thalescyprus.com. Deadline **4.3.2013**. Samples from similar competitions in the past can be viewed at www.euromath.org.

1st Prize: 10 inch Tablet 2nd and 3rd Prize: Tablet
